Modu Hygiene Drip Tray – White Plastic, Self-Adhesive: Keep Surfaces Clean & Professional

Tired of messy drips and spills around your soap dispensers and hand sanitiser stations? The Modu Hygiene Drip Tray in white plastic offers a simple yet highly effective solution to maintain a clean and professional appearance in your washrooms and hygiene areas.

This practical **self-adhesive drip tray** is designed to catch stray drips, preventing unsightly residue build-up on counters, walls, and floors. Made from durable and easy-to-clean white plastic, it seamlessly integrates into any environment, enhancing hygiene and reducing maintenance efforts.

Key Features & Benefits:

- **Effective Drip Prevention:** Catches drips from soap dispensers, hand sanitiser dispensers, and other wall-mounted units, keeping surfaces clean and dry.
- **Self-Adhesive for Easy Installation:** No tools required! The strong self-adhesive backing ensures quick, secure, and hassle-free mounting on various surfaces.
- **Durable White Plastic:** Made from robust plastic that is easy to wipe clean and maintain a hygienic appearance.
- **Discreet and Professional Design:** The clean white finish blends seamlessly into any washroom or hygiene station aesthetic.
- **Reduces Cleaning Time:** By containing drips, this tray minimises the need for frequent cleaning around dispensers.
- **Maintains a Hygienic Environment:** Prevents the spread of germs and bacteria associated with sticky drips and spills.
- **Ideal for Various B2B Settings:** Perfect for use in offices, restaurants, hotels, schools, healthcare facilities, and more.
- **Cost-Effective Solution:** An affordable way to improve hygiene and maintain a professional image.

Easy to Install: Simply peel off the backing and adhere the drip tray directly beneath your dispenser. The strong adhesive ensures a long-lasting hold.
